

# Enzyme-Linked ImmunoSorbent Assay

## Product Series

Category	Item	Certification	Clinical Applications
Bone Metabolism	25-OH-VD	CE	Evaluating for vitamin D deficiency or insufficiency.
Anemia	VB12	CE	Diagnosis of VB12 deficiency anemia.
Liver Disease	HBV-LP	NMPA	Reflecting the replication status of hepatitis B virus.
	GP73	NMPA, CE	Screening and assessing the severity of hepatitis, liver fibrosis and cirrhosis; Therapeutic effect monitoring and prognosis evaluation.
	AFP	NMPA, CE	Early screening, diagnosis, efficacy detection, recurrence monitoring and prognosis judgment of liver cancer.
	DCP	NMPA, CE	
Tumor	CEA	NMPA, CE	Universal tumor markers.
	CA125	NMPA, CE	Tumor markers for ovarian cancer diagnosis.
	HE4	NMPA, CE	
	CA15-3	NMPA	Tumor markers for breast cancer diagnosis.
	CYFRA21-1	NMPA	Diagnose non-small cell lung cancer, monitor therapeutic effect and judge prognosis.
	tPSA	NMPA	Tumor markers for prostate cancer diagnosis.
Rheumatoid Arthritis	Anti-CCP	NMPA, CE, CDSCO	Differential diagnosis and early diagnosis of RA; RA prognosis assessment and therapeutic efficacy judgment.
Cardiovascular	Lp-PLA2	NMPA, CE, CDSCO	Cardiac specific markers of vascular endothelial inflammation; Reflects the stability of AS plaques; Risk assessment and efficacy monitoring of atherosclerotic cardiovascular and cerebrovascular diseases.
Sex Hormone	AMH	CE, CDSCO	Evaluation of ovarian reserve, prediction of ovarian stimulation response, auxiliary diagnosis of polycystic ovary syndrome.
